

Chorro Valley Access Road Repair Project
Operating Committee Meeting
October 21, 2026

Chorro Valley Access Road Repair Project

- The Chorro Valley Access Road provides the sole access route to the South Portal of the Cuesta Tunnel
- In 2023, extreme rainstorms caused erosion and damaged both the Chorro Valley Access Road and the supporting slope
- San Luis Obispo County Flood Control and Water Conservation District (SLOCFCWCD) designed a project and obtained grant funding to complete repairs

Chorro Valley Access Road Repair Project

Chorro Valley Access Road Repair Project

- SLOCFCWCD has requested that the remaining project cost that would not be paid for by grant funds be split evenly among the four pipelines that occupy the Cuesta Tunnel
- CCWA's share of the estimated non-reimbursed project cost would be 25% of \$504,415, or \$126,000
- CCWA's FY 2026-27 Budget includes \$100,000 for this project and an additional \$26,000 may be included in the FY 2027-28 Budget
